

WEEKLY UPDATE

FALCON digital

web design | digital marketing | SEO | PPC

Louise Jenner

DATE: 29th April – 3rd May

REPORT BY: Elise Prowse

WORK TYPE: SEO

Welcome to your weekly update from Falcon Digital, this will include all actions taken by our talented SEO or digital marketing team to increase your search engine rankings or manage your social media.

If you would like to discuss this further, please do not hesitate to contact us:

Email: hello@falcondigital.co.uk

Telephone: 01626 912 773

We are extremely partial for a coffee and cake type of chat, so do not hesitate to pop in.

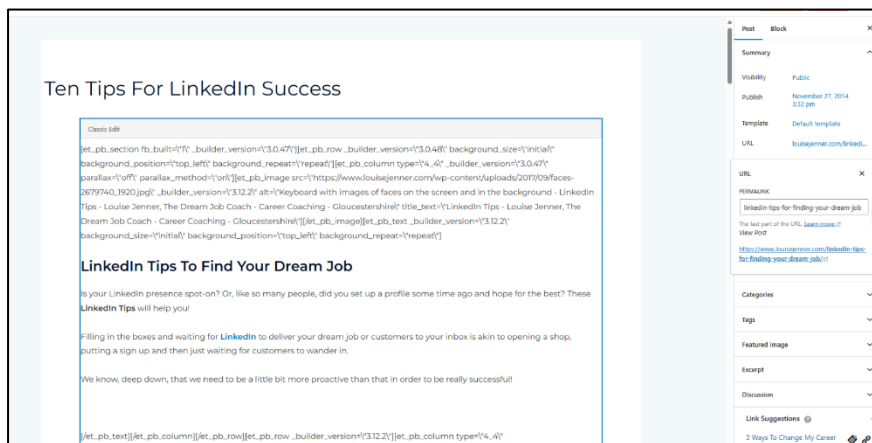

As always, we are extremely grateful that you are working with us.

Falcon Digital.

Notes from your account manager:

This week we started by fixing 9 of your older blogs which are still on the wrong builder we will carry on with this next week. It is important to update these to ensure a positive user experience since the older builder is not pulling through images and has code elements visible.

After that, we then worked on your site health we fixed the following:

- Fixed 11 pages with internal links to 3xx redirect pages.
- Fixed 117 pages with external link to 4XX pages.
- Fixed 7 pages with external links to 3xx
- Fixed 36 pages with 4XX HTTP Status codes.
- Fixed 4 pages with 3xx images.
- Fixed 2 pages with 4XX images.
- Fixed 36 pages with 4XX or 5XX redirects.
- Fixed 36 pages with 3XX HTTP Status codes.

Why are 4XX HTTP status codes bad?

4XX HTTP status codes indicate that the requested page or resource cannot be accessed. 4XX URLs provide a poor user experience for the site's visitors because they cannot access the page or file via the link they clicked on. Moreover, internal links to 4XX URLs drain your crawl budget. Pages of your website that changed their response code to 4XX will be removed from search engine indexes.
