Tier-on-tier window shutters

Tier-on-tier window shutters offer enhanced control over your window treatments, granting you the freedom to effortlessly regulate the level of light and privacy in your living space.

By allowing the top and bottom panels to operate independently, these shutters provide seamless integration with our full-height collection while still enabling you to achieve a charming café-style aesthetic when the panels are open.

With the ability to adjust the top panels to invite ample natural light while maintaining the lower panels closed for increased solitude, these shutters in Newton Abbot ensure a picturesque ambiance tailored to your preferences.

Full-height window shutters

If you're in search of a window treatment that effortlessly combines the benefits of privacy and natural light control, look no further than our full-height shutters in Newton Abbot. These exquisite shutters feature a modern panel design that seamlessly enhances the aesthetic appeal of windows of any size or style.

For a truly personalised touch, you have the freedom to choose between a visible tilt rod or a concealed one. To further enhance their versatility, we offer the option to incorporate a mid-rail, allowing you to independently adjust the upper and lower louvres.
